Valentyna Kuzmych

Front End Developer, Designer and Entrepreneur

Designer: UI/UX designer with a passion for designing beautiful and functional user experiences.

Programmer: Front End Developer who focuses on writing clean, reusable, elegant and efficient code.

Entrepreneur: started at least 5 companies (alone and with friends). Two of them were successful, one is on hold.

I ❤️ coffee and cooking.

Objective

To find a position of UI developer / Web Designer / Front End developer in a company where I can create significant websites/applications, make architectural decisions and take responsibility for them. I'm searching for the job which gives we ability to lead the software product from the scratch to end users, communicate directly with customers and stakeholders.

Pavlo Tkachuk ·
Senior Frontend Developer at N-iX

I've worked with Valentyna on the same project and team for almost 5 years at Ciklum and can recommend her as one of the most valuable team members. As a professional, she contributed a great deal to the UI/UX design and to the front end of the product. I admire her passion for work and her hardworking personality very much. She is a team player and a very friendly, open-minded person that would be a perfect fit for any team.
Kind regards,
Pasha

Olha Nosalska ·
UI/UX Designer at Ciklum

I had a wonderful experience working with such an amazing person and a talented developer. An excellent team player, open to discussion, focused on solving problems in the most optimal way, high expertise in Front End Engineering. Working with Valentyna you always feel support and friendliness. Incredibly happy for our cooperation.

Philippe Peron
CDO. Evolve, a partner in business and technology, our talented teams build great software, on time and on budget.

It's been a great professional experience to work with Valentyna over the last years.
She's got a very valuable experience and deep knowledge of Front-End technics.
Coupling this with her attention to detail and extreme rigor makes Valentyna a reliable contributor, able to implement almost any kind of Design without any surprises and communicate accordingly with stakeholders if any challenge appears.
I would strongly recommend Valentyna as a Senior Front-End Dev and UX/UI Designer.
